The Z/28 CAMARO CHEVROLET

Reach for the sky.

The New Camaro

What's new under the hood? For starters, there's Camaro's available sun roof with tinted glass panels. Easily retract, the panels store right in the trunk. And how that moment on the sky's limit.

If there's anything that can compare with the looks of a Camaro, it's the performance of a Camaro. This is out on the open road. You'll see what we mean.

For 2016, Camaro wears a new and exciting look. This

stealer look is highlighted by new front and rear styling. All Camaros are special. But the LT (shown), that's a very special Camaro. Buckle up on the LT and reach things as high as you want. Sport mirrors, deluxe instrumentation, extra sound insulation and simulated leather trim around the dash.

The new Camaros. If you want to reach the sky.

SEE WHAT'S NEW TODAY IN A CHEVROLET.

Then
&
Now

We've learned a lot from Corvette.

We've been building the Corvette for 18 years now, and it's still America's only two-seat production sports car.

And for the last five years, we've been building Camaro. Our four-seat sports car.

Over the years, we've learned a lot about axle control, engine efficiency, springing, steering, weight distribution and aerodynamics from Corvette.

Like Corvette, Camaro has a road-tugging suspension. But unlike Corvette, Camaro has a back seat. Two bucket-styled back seats. Here's the point. We've learned a lot about sports cars from Corvette. And Camaro proves it.

Here it is. Camaro.

Classic Camaro Coupe

Here are five ideas you can live with. One is both new and great. Another, better. And one that everyone who reads this page can believe. See how.
